

# Industrial Monitor Repairs

AbraxSys offers a number of Low-Cost and Rapid service solutions including comprehensive repairs and refurbishments programs to both CRT and LCD based products as well as complete retrofit capabilities. From monochrome to high resolution color, our factory trained technicians understand digital and analog technologies. We repair most brands and types of LCDs, including TFT LCDs (active matrix), DSTN LCDs (dual scan), monochrome displays.

## Repair Services

LCD, CRT, and Touch Screens, are expertly repaired and serviced. Video driver and controller repair, replacement of screens, backlight assemblies, power supplies are just a few of the monitor services provided by AbraxSys. Most Industrial CRT and LCD Monitor makes and models are supported, including Aydin, Honeywell, KME, Vartech, Intecolor, DataPlus, Ikegami, Hitachi, Mitsubishi, Conrac, Microvitec, ABB, Westinghouse, Allen Bradley, Barco, Hatteland, Computer Dynamics, plus many more. We also service CNC Displays, Security Monitors, Medical Monitors, Touchscreen Operator Control Stations, POS (Point of Sale) Terminals, and more.

Our factory trained monitor technicians service both analog and digital A/D boards, touch screens and power supplies. All integrated electronics are fully tested to ensure complete functionality. AbraxSys provides the highest level of industrial monitor repair service in the industry. Period.

# Retrofit Services

Consists of the removal of all of the electronics and CRT or LCD from your existing monitor enclosure and "retrofitting" a brand new AbraxSys LCD kit into your monitor frame thus not compromising any unique mechanical mounting compatibility issues. This kit incorporated the unique, proprietary AbraxSys A/D system board, power supply, inverter, and all other associated electronics. All parts and labor are backed by a full ONE (1) Year Warranty.
